

To increase our communication with you and to alert you of important events, functions or notices, the school uses the application called Skoolbag. This is available from the Apple iTunes or Google Play stores. See the school website at (<http://stjudesps.act.edu.au/skoolbag/>) for details on how to download the app for your phone or tablet device.

You also might consider adding your email address to the Skoolbag application as well. Instructions can be found on the same page.

Parents and carers are encouraged to download and install the application onto your device, or to provide your email address.
