## YEAR 6 CSIRO EXCURSION

Dear Parents,

This term in Science, Year 6 have been investigating examples of human activity and natural processes that have an effect on the Earth's surface.

Both classes have conducted an experiment on 'Salt and Germination.' The experiment clearly demonstrates the damaging effects of salinity on seed germination. The children began to see the role of variables in measuring changes and the value of accuracy in these measurements.

As part of this unit we will travel by bus to CSIRO and take part in a tour of their facilities. In particular, looking at the effects of soil salinity.

**Where:** CSIRO

**When:** Thursday 14 June 2018

**Supervising Teachers:** Angela Sallecchia and Anna Stincic

**Transport and Times:** We will leave school by bus at 12:30pm and CSIRO at 2:30pm

**Cost:** The cost of the excursion is covered by the excursion levy

**Uniform:** Full school uniform

**What to bring:** Drink bottle, packed lunch and recess in a labelled paper/zip lock bag. No lunch orders on this day.

Please fill out the permission slip and return it to school before **Monday 11 June.**

Kind regards,

Angela Sallecchia and Anna Stincic
